

ACTM
Alabama Council of Teachers of Mathematics

2018-19 Elementary Building Memberships

The Alabama Council of Teachers of Mathematics (ACTM) encourages all teachers that teach mathematics in elementary schools to join us. ACTM is an affiliate of the National Council of Teachers of Mathematics. A Fall Forum is held each year for teachers to come together to share ideas, to network with likeminded educators, and to learn best practices.

The Annual Fall Forum is currently being held in Birmingham at the McWane Science Center either in late October or early November. We continue to have **many sessions** (a full slate of K-6 sessions each fall which are dedicated to elementary teachers of mathematics) specifically for elementary teachers.

More info about our organization can be found at <http://actm.education> or the ACTM Facebook page. Individuals may join our organization for annual dues of fifteen dollars. ACTM also offers elementary schools the option to apply for an Elementary School Building Membership with annual dues of **thirty dollars (\$30)**. The primary benefit of this option is that all teachers in the building will be allowed to attend the ACTM Fall Forum at the membership rate (saves each teacher registering \$35).

INSTRUCTIONS for APPLYING for an Elementary Building Membership

The person who completes the form is designated the lead for this school and is the sole responsible party for submitting an updated list of members to the membership chair. This list will be used when attendees request access to member benefits, such as attending the annual conference at the membership rate. Each teacher who is on the list must create a user profile at www.actm.education. That is, enter their name, school, contact information, etc. Once all teachers have created their profile (do not pay for a membership) on the website, the building designated lead person shall send via email, a list of participating teachers for the school applying for building membership to the ACTM Membership Chair, Delphine Thirkill at dbthirkill@aol.com.

QUALIFICATIONS

Buildings must be dedicated to serving elementary grades (K-6) or primary grades (K-3) or both elementary & middle grades (K-8). Only teachers certified in elementary grades or teaching multiple subjects are eligible for building membership at a rate of \$30. Single field math teachers in grades 7&8 need to apply for individual membership at the regular membership rate of \$15.

The recurring payment option is not available for the Elementary Building Membership.

Please mail the completed form and \$30 to Michele Matin, ACTM Treasurer at 8318 Lightfoot Court, Auburn, AL 36830.
