

MATHEMATICS DEPARTMENT
of the
ALABAMA EDUCATION ASSOCIATION
1924-1970

ALABAMA COUNCIL
of
TEACHERS OF MATHEMATICS
1970-present

PURPOSES

1. To encourage an active interest in mathematics
2. To improve the teaching of mathematics at all levels
3. To encourage higher qualifications of mathematics teachers
4. To promote a spirit of cooperation and professional ethics
5. To influence a continuous development of a mathematics curriculum
6. To promote participation in mathematics clubs, Mu Alpha Theta Chapters and mathematics tournaments for students.

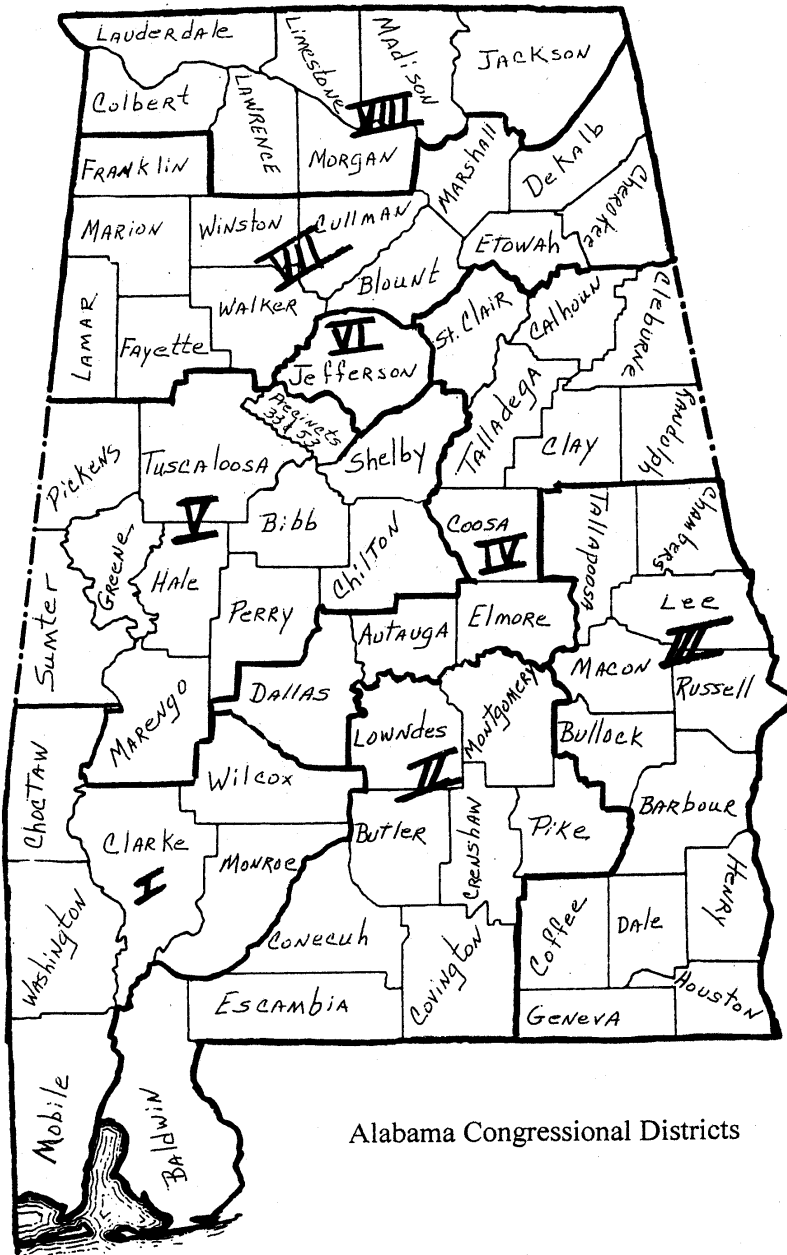

Map and Alphabetical List of Counties show division of state into Districts, each managed by a Director serving usually a two-year term.

PURPOSES of the DISTRICTS

- I. To coordinate activities at local levels
2. To encourage membership in ACTM and NCTM
3. To plan and implement in-service workshops for mathematics teachers
4. To plan and implement district tournaments for students
5. To represent the district in state planning sessions

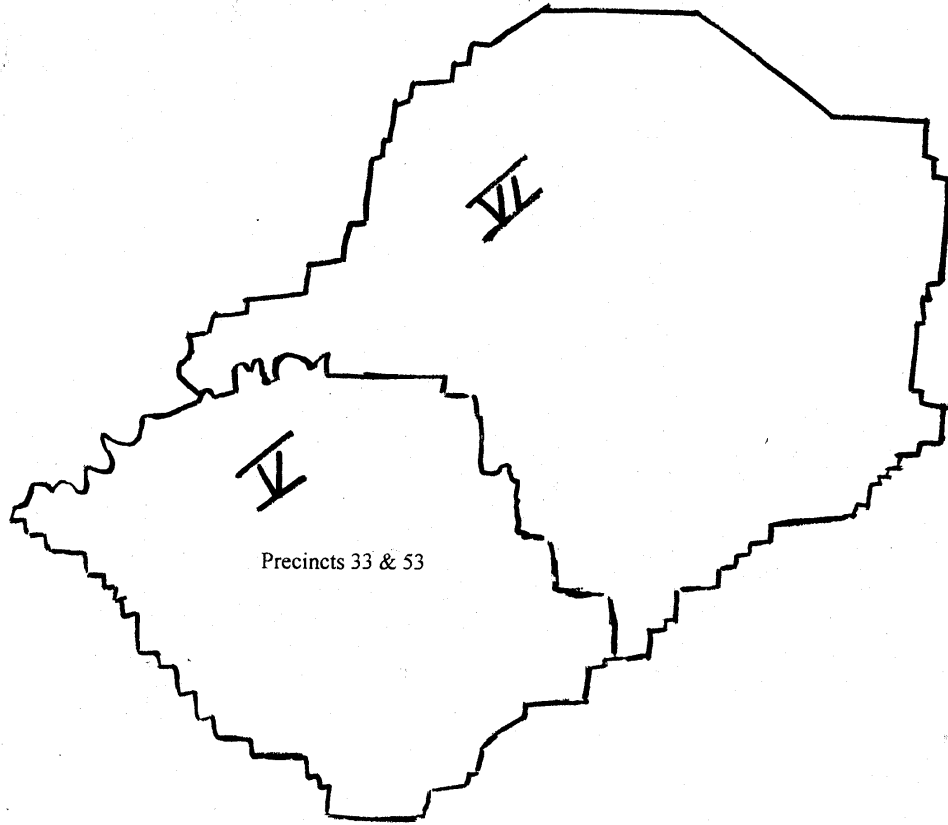

District Organizations

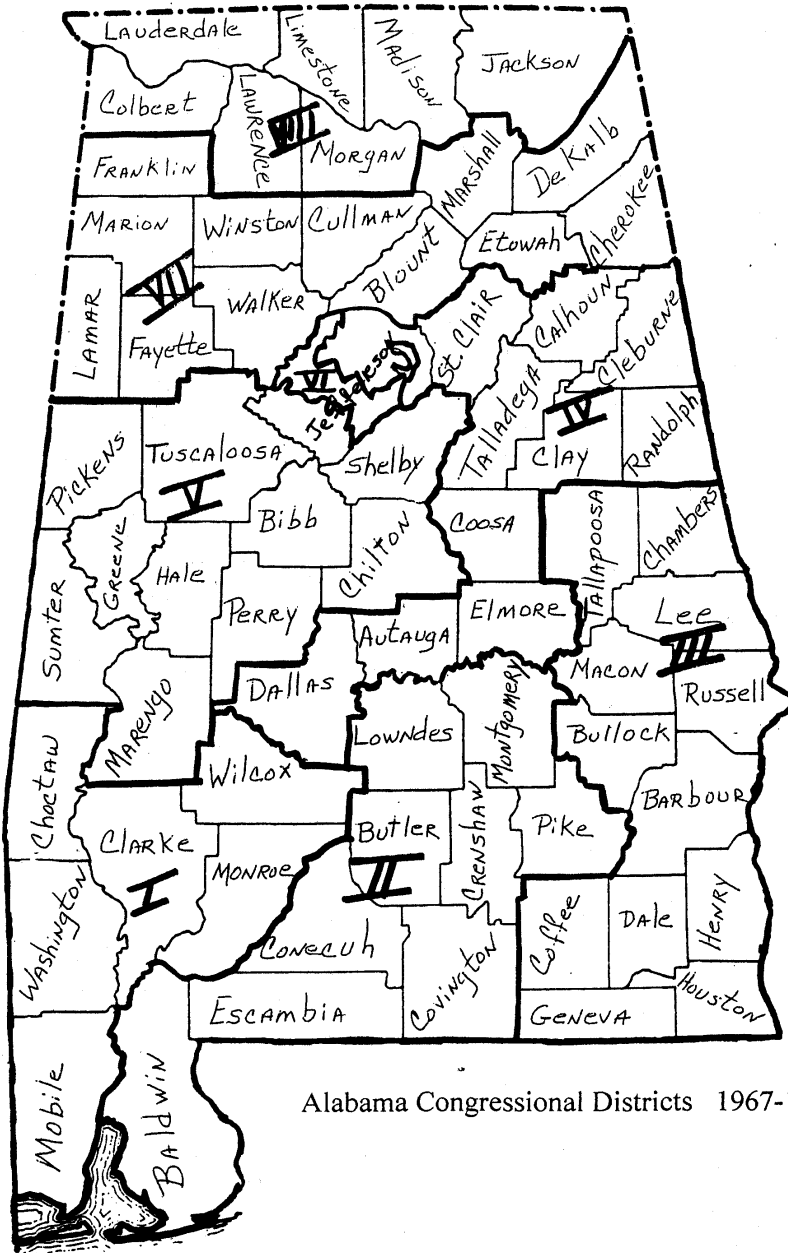

District organization in ACTM was informal during years 1964-1969. Districts followed the pattern of Alabama Education Association of congressional districts, which was changed during that time. New district IV (old district V), Jefferson and Shelby Counties began meetings and workshops held each fall. Not all districts had meetings or elected directors of record until those listed under 1969-70.

NEW NAME--NEW CONSTITUTION--NCTM AFFILIATION-- 1970-1971

Union of the **Mathematics Department of the Alabama Education Association** and the **Alabama State Teachers Association** created the **Alabama Council of Teachers of Mathematics**. An interim Constitution specifying composition of officers and district directors for a two-year period with equal representation from the two groups was adopted for use from March, 1970. At the end of the interim period, officers and district directors were subsequently elected as specified in the permanent Constitution also adopted March 12-17, 1970. Chartered as an affiliate of the National Council of Teachers of Mathematics at its convention in Anaheim, California, April, 1971

ALABAMA STATE MATHEMATICS CONTEST

In 1979, plans for an Alabama High School Mathematics Contest were initiated by ACTM and AACTM as joint sponsors and Gary Harper, Mathematics Supervisor of the Birmingham Public Schools, as chairman. It was designed to extend appeal of existing competitions to a wider segment of good mathematics students. The first contest took place during the Spring of 1981. It involved only a comprehensive division with plans to include Algebra I, Algebra II, Geometry and Eighth Grade Mathematics in future contests.

Purposes of Mathematics Contest--Quoted from Contest Flyer

- 1) To stimulate interest in mathematics by encouraging more students to include mathematics in their program of study, and thereby to raise the level of mathematical competence in the state of Alabama.
- 2) To honor those students who are outstanding in their knowledge of mathematics through appropriate public recognition in their schools in their communities.

The Contest is conducted as an academic festival where students represent their school in competition with others at a nearby testing center. These students compete with each other for preeminence in their District. Then selected students compete for recognition at the state level.

Business meeting—held during the Annual State Conference

The Conference Committee was introduced to those present.
The Scholarship Winners for 2001-2002 were introduced.
Pat Rossi was introduced as the new editor of the Alabama Journal of
Mathematics.

Alabama is being considered for an NCTM Academy in conjunction with
the state conference in 2002.

Those nominated for positions on the Executive Board for 2001-2003
were presented. A motion was made and seconded that those
nominated be elected to these positions. The motion passed
Linda Ussery described the proposed amendments to the ACTM
Constitution. For each of the amendments, a motion was made to
approve the amendment, a second was given, a vote taken, and each motion
passed.

Todd Taylor was appointed temporary membership chairperson until the
position is filled by election in 2002.

Duties of a district director were discussed. The possibility of dividing
District 6 was discussed

A request for volunteers for the 2002 conference was made.

Teacher Grants

As a service to its members, ACTM is opening a mini-grant competition for grades K-12 members. The purpose of these grants is to assist teachers in developing classroom projects to motivate and increase the achievement of their students in mathematics. Only ACTM members in good standing are eligible to apply.

The ACTM will award up to 8 mini-grants valued at \$250-\$500 each. Funds must be spent on items for classroom instructional use in mathematics. They may not be used for teacher travel to conferences.

Logo Contest

Finding the need for a logo representing the purposes of the organization, ACTM held a logo contest. The winning logo will represent ACTM on Communications, materials, and articles.

Students in Alabama public, private, and parochial schools in grades 7-12 were encouraged to submit logos that represent these purposes. The students who produces the winning logo will receive a \$300 award. The teacher who recommends this contest to the student who produces the winning logo will receive a \$50 award.

The winner of the Logo Contest –2002 is Clark Andrews—Simmons Middle School, Hoover.

The supporting teacher is Kim Walton—Simmons Middle School, Hoover.

AMSTI—Alabama Mathematics, Science, and Technology Initiative

AMSTI is an initiative to improve mathematics and science education across the state of Alabama. It provides students with well-trained teachers and the equipment, materials, and resources needed for hands-on, activity-based, math and science education. AMSTI has been endorsed by:

The Alabama Board of Education
The Alabama Council of Teachers of Mathematics (ACTM)
The Alabama Science Teachers Association (ASTA)
The Alabama Mathematics, Science, and Technology
Education Coalition (AMSTEC)
The Alabama Department of Education

June, 2002

ACTM was contacted to help defray the cost of AMSTI banners for each of the 21 schools participating during the summer. The ACTM Executive Board voted “yes” to spending \$750 on the AMSTI banners for the summer of 2002. It was to have “ACTM” printed somewhere on the banner. This did not happen.
